

Sure Stay = Drawer Guides

What are *Sure Stay* drawer guides and why do I need them?

Sure Stay drawer guides helps to prevent your drawers from opening up on their own from the forces of gravity. This is a common issue if your home is carpeted (tack strips) or your floors foundation is not level.

How do I know if my drawers have the *Sure Stay* drawer guides?

When closing your drawer, you'll notice an extra push is necessary to have it fully close. That extra push firmly seals the drawer so it won't open up on it's own.

Below is a quick review on how the *Sure Stay* drawer guides work...
